"Enhancing Excellence Through Best Practices in Higher Education"

Organized by:
Research Committee,
Pfutsero Government College

Date : 17th November 2021

Time: 6:00 PM

Platform: ZOOM

ABOUT THE WEBINAR

Merriam Webster dictionary defines “*Best Practice*” as ‘a procedure that has been shown by research and experience to produce optimal results and that is established or proposed as a standard suitable for widespread adoption’. This concept of practicing Best Practice in organizations or in running a business was first popularized by F.W. Taylor with his Scientific Management theory that promoted the idea that there is “One right way” of improving efficiency of production in Industrial settings. Any kind of change that results in efficiency and improvement of quality is highly welcome. Hence it is no surprise that this idea is now being applied in all fields be it in – Health care, communities, business settings, Agriculture, School Education, Higher education etc. In Indian Higher Education setting, The National Assessment and Accreditation Council (NAAC) considers best practice as “the practices which add commendable value to an institution and its various stakeholders, are considered as reliable benchmarks or standards of quality”. All higher educational institutions are encouraged to have best practices for enhancing quality education in the country. Understanding the importance of applying best practices in our institutions for quality enhancement, it is with expectation that this webinar will further enlighten all participants into a deeper understanding of this concept.
